PRODUCT BROCHURE

2023

Creating possibilities.
Enabling excellence.
Enhancing lives.

About Us:

Alivat is a sister brand to Active Rehab. We are a family owned and run business whose mission is to bring the latest advancements in assistive technology to Australia. We enable our partners to better serve their customers and meet their changing needs.

By constantly staying updated with the latest innovations, we are paving the way for our suppliers and dealers to thrive in the dynamic and rapidly evolving field of assistive technology. Together, we are unlocking new possibilities and driving a positive change for individuals with disabilities.

Join us as we shape the future of assistive technology and create meaningful impact. Together, we can make a difference.

Why Alivat

Creating possibilities.

We are sourcing the latest assistive technology from around the world which in turn is creating possibilities for our suppliers, dealers, and disabled people.

Enabling excellence.

Our cutting edge products are enabling AT providers around Australia to be at the forefront of the marketplace.

Enhancing lives.

The ultimate goal of providing top end assistive technology to the Australian market is to enhance the lives of those who use it.

Zeat Seat

NOT THE AVERAGE SPECIAL NEEDS SEAT

The Zeat Seat is a versatile indoor seating solution designed for various activities such as, feeding, and learning. Crafted from durable hardwood with a lacquer finish, the Zeat Seat is not only functional but also visually appealing, making it a perfect fit for any home or school environment. Its modular design allows for flexibility in use, providing opportunities for engaging and comfortable seating during different activities.

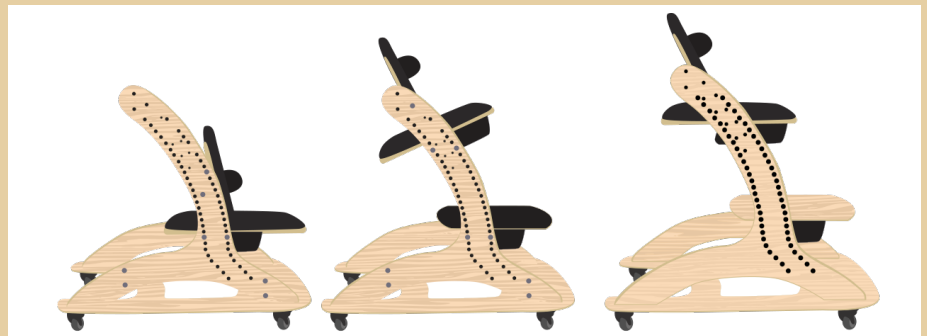

GROWTH

Children grow, we all know that. Having to continually upgrade equipment because of growth spurts can be frustrating. However with the Zeat Seat you are sorted from 6 months until their child is an adolescent! There is huge growth adjustment range in the Zeat Seat, which is easily adjusted with using only an allen key. clients can make necessary adjustments all by themselves.

ADJUSTABILITY

The Zeat Seat boasts exceptional adjustability, making it suitable for a wide range of activities. With features such as adjustable backrest angle, seat angle, and seat height (including the option to set the seat low to the floor), it provides customizable support to meet individual needs. Additionally, the Zeat Seat offers the flexibility to remove laterals and other components as needed, making it adaptable to different levels of support required for various users.

Package includes

- Seat frame, and footplate
- Seat and padded seat cushion
- Padded backrest
- Adjustable chest strap
- Activity tray
- Padded lateral supports
- Wheeled base
- Adjustable hip belt

WIPE DOWN

Zeat Seat upholstery is made out of soft touch dartex which is easily wiped down. As the Zeat seat is made from timber with a lacquer finish, the whole seat is also able to be wiped clean.

Baffin Automatic

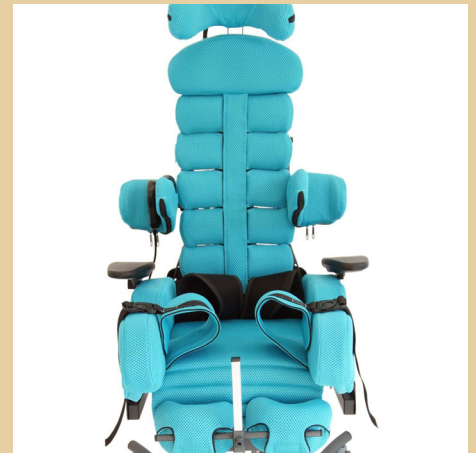

STANDING AND SEATING IN ONE!

The Baffin Automatic multifunctional device is designed for standing and sitting. Thanks to the innovative system of the built-in "spine", side supports and pelvic correction, Baffin automatic is an excellent adaptive piece of technology. It facilitates changing the patient's position to a sitting and standing position. Thanks to Baffins design it's easy to use, it can be used in a broad range of environments.

BENEFITS

- Improvement of the functioning of the cardiovascular system,
- Prevention and treatment of venous stasis,
- Improving lung ventilation and preventing pneumonia,
- Prevention of pulmonary embolism,
- Prevention and treatment of osteoporosis,
- Prevention and treatment of stasis in the urinary system,
- Improvement of intestinal peristalsis,
- Preventing muscle wasting of contractures, improvement of joint mobility,
- Building the correct sitting pattern.
- Increased body control.
- The Baffin features a built in spine system which can move and twist to mimic an actual spine. This means that the baffin can be adjusted and custom molded to fit the users bodyshape perfectly.

Baffin NeoSIT

A BUILT IN SPINE CREATING THE PERFECT SEAT

Baffin neoSIT HL is an orthopedic seat for children that stabilizes the back and head. It is designed to position the patient in a sitting position and in tilted positions.

Baffin neoSIT is a stable mobile frame with adjustable height, wheels (size of wheels to choose from), seat, upholstery, belts stabilizing the pelvis, armrests, vest, chest supports, hip supports, knee supports with abductor belts, handles, and a footrest with foot straps. The movement of the platform is assisted by a gas spring. The Baffin is covered with upholstery that can be removed for washing.

FEATURES & BENEFITS

- Correction of posture defects - allows you to properly position the child's spine and pelvis;
- Great possibilities of adjusting to the anatomical shapes of the user;
- Innovative design of the backrest imitating the human spine;
- Light and compact design allows you to take a sitting and semi-recumbent position;
- Changing settings using easily accessible knobs;
- Leg stabilization - knee pads with abduction straps;
- Modern design.
- Improving lung ventilation and preventing pneumonia,
- Improvement of mental state,
- Treatment and slowing down the progression of scoliosis in children and adolescents with lost gait function,
- Building the correct sitting pattern.

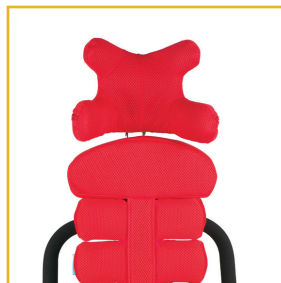

The innovative design of the Baffin neoSIT HL incorporates a built-in "spine", side supports, and pelvic correction, making it an excellent tool for therapists to effectively position patients in sitting and tilted positions.

Travel Sit

FOR FAMILIES ON THE MOVE

Travel Sit is a portable orthopedic seat for children up to 125cm tall, stabilizing the back and head. The Travel Sit includes six movable cushioned pads, complemented by two safety belts and an ergonomic headrest, all aimed at providing optimal support to the user while seated. Upholstered with zero spot system technology fabric which prevents the absorption of spilled liquids, the fabric is not only functional, but also boasts rich and vibrant colors, making it visually appealing and comfortable to use.

Travel Sit is for all those little patients who often travel, moving from home to school, and play dates. Travel Sit is a supportive seat that can be easily taken anywhere.

USES FOR THE TRAVEL SIT

- School
- Sitting on the floor interacting with peers
- Participating in events at a table
- On holiday
- Using the equipment at playgrounds
- Wherever extra support is needed while sitting

WHY TRAVEL SIT

- Helps build correct sitting pattern in all everyday situations
- Improved lung ventilation
- Improves mental state, as it allows inclusion of activities and play
- Slows down the progression of scoliosis

Simon car seat

SAFETY FIRST!

The Simon car seat is specially designed for children that need extra support and comfort while traveling, with highly adjustable trunk, pelvic, and head supports to ensure their safety and security.

The Simon car seat is made with a focus on safety, comfort, and ease of use. It comes with various safety features such as adjustable headrest and side impact protection, which provides extra protection to the child. The car seats are also equipped with the ISOFIX mounting system, which ensures that the seat is properly installed in the car and reduces the risk of incorrect installation.

FEATURES & BENEFITS

- Safety guaranteed by approval acc. the requirements of the latest provisions of UNECE Regulation R129/03.
- Unique and one of a kind integrated with the base, adjustable seat bucket system (Tilt)
- Tilt in base system
- Swivel seat base.
- Fully adjustable backrest height and seat depth. The seat grows with the child.
- ISOFIX system.
- "SOUND" system - built-in loudspeakers in the headrest of the seat, enabling the connection of a device to play music

COMFORT

The Simon car seat is also designed for comfort. It is made with soft, breathable materials that provide a comfortable ride for the child, even on long car journeys. The Simon car seat is easy to clean and maintain, which is essential for parents who want to keep their car seats looking new.

Hop Trike

FREEDOM TO RIDE

We strongly believe that everyone deserves the opportunity to participate in activities and experience the joy of cycling. With the Hop trike, individuals with physical disabilities can now join in too. This trike has been specifically designed to be adjustable and supportive, allowing it to be tailored to meet the specific needs of each individual. As a result, the Hop trike provides a unique opportunity for children and adults to experience the thrill of riding a bike and be included in such activities.

FEATURES AND OPTIONS

- Lowered frame profile
- Height and angle adjustable handle
- Shimano hardware
- 7 speed derailleur
- Front wheel shock absorber
- Basket
- LED & reflective lighting
- Available with power assist
- Foot mounting platforms
- Handle with a brake and the function of changing the direction of travel
- A wide set of accessories for trunk stabilization (back support, hip support, trunk, headrest, & pelvic)
- Various shapes of handlebars and saddles.

The Hop is a lightweight bike made with a durable aluminum frame, which makes it easy to manoeuvre and control. The Hop is equipped with a chain guard, fenders, and a kickstand, which provide added safety and convenience for both the user and the carer.

Headaloft

HEAD SUPPORT FOR CHILDREN AND ADULTS

Many children and adults who use wheelchairs lack head control and are unable to hold their head upright to various extents. This negatively affects their day-to-day life, causing functional difficulties around breathing, swallowing, and communicating, as well as self-esteem issues.

HEADALOFT is a comprehensive, patented head support that instantly improves the quality of life of people who lack head control. Made of high-quality, durable fabric, Headaloft comfortably and gently holds the head upright in a versatile, non-restrictive manner. Headaloft is easy to install, can be transferred quickly between wheelchairs and other seating options with an existing head support.

LIFE CHANGING BENEFITS

- Better body symmetry
- Smoother breathing
- Easier eating/swallowing
- Enhanced communication
- Assists with eye gaze control
- Ergonomic neck support
- Quality napping
- Sore prevention
- Enjoyment of entertainment

A UNIQUE SOLUTION

Affordable and universal, HEADALOFT is a one-of-a-kind product on the market, attaching easily to most headrests. Made of the highest-quality materials, compliant with worldwide quality standards, HEADALOFT provides instant results and changes lives.

The innovative occipital support cushion is an add-on that offers additional support and comfort. It can be easily, quickly installed, and is machine washable.

Next Generation Positioning Cushions

SLEEP POSITIONING AT ITS BEST!

Next Generation Positioning Cushions are developed to stabilise and ensure that the user is positioned with the aim of making the best opportunities of 24 hour care.

All cushions are filled with small, oval-shaped, dynamic bullet which are soft and stabilising. Even after 50,000 times of pressure loading, the bullets retain their shape and stability. The bullets are sealed, waterproofed, anti-bacterial and fire retardant. Other benefits of the technology behind the filling in the next generation cushions include protection against heat and moisture accumulation.

WEIGHT AND STABILITY

Next Generation Positioning Cushions have a weight and stability that will make sure that the patient stays in position. The cushions can be adjusted in areas, so they support the users body shape and needs. Next Generation Positioning Cushions also allow for micro positioning, for cases where isolation of tender or healing injuries is ideal.

THE FABRIC

The cushion outer is made in a PU material so it is breathable, stretchable, anti-bacterial, waterproof and fire retardant. The PU material is approved against liquid penetration and used for PPE classification 3B Standard against Virus penetration. Next Generation Positioning Cushions are easy to clean and maintain.
